

English

The children will spend the first few weeks exploring the techniques they need to be successful in their SATs reading tests.

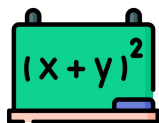

Following this they will dive into the visually stunning **The Arrival** by Shaun Tan. The children will examine the themes of travel and isolation and draw comparisons to their own experiences.

Maths

The first part of the summer term will be focused on revising key learning from the past year to support children ahead of their SATs maths tests.

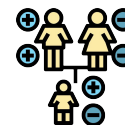

Following this we will then study topics that will help the children prepare for secondary school including ratio, proportion and algebra.

Science

We will continue with our topic of **Evolution and Inheritance** and will focus on:

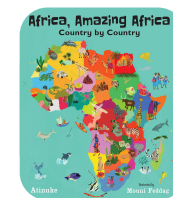

- what fossils tell us about history
- how living things have adapted to suit their environment
- how adaptation may lead to evolution

Geography

Our new topic is '**Sharing the World**' which will;

- deepen the children's understanding of how trade connects the world
- examine how different man made and natural resources are traded
- explore more sustainable ways to trade goods

Curriculum Information

new wave
federation 

Year 6 - Summer 1

Computing

We will be developing our 3D modelling skills. This will demand us to select, use, and combine a variety of software (including internet services) on a range of digital devices to create original content.

We will design and create a range of programs, systems, and content that accomplish given goals, including collecting, analysing, evaluating, and presenting data and information.

PE

We have a PE lesson every **Wednesday and Friday**. Please ensure the children wear a PE kit on those days.

The focus of the sessions will be athletics and basketball. The children will develop enhanced approaches to basketball and will begin to work more successfully in teams.

PSHE and RE

In **RE** we will be continuing to learn about commitment. This topic will examine different religious and non-religious teaching about the role of commitment in society.

In **PSHE** we will explore the various relationships in our life and how we can prepare for the upcoming transition to our new school.

Art and Design

In our unit, **Brave Colour**, we will be learning to:

- research artists who use bold/brave colours
- explore with colour using collage and other media
- make visual notes about installation art
- create an idea for an immersive installation
- evaluate the skills that we have used
