

# NOW HIRING EDTECH SPECIALIST

The EdTech Demonstrator Programme was developed by the Department for Education to ensure schools and colleges across England could access free, expert advice on educational technology.

The New Wave Federation is part of a network of 42 EdTech demonstrators spread across England. Our aim is to offer support to schools and colleges in developing digital strategies which make effective use of technology to enhance teaching and learning.

Since 2015 we have held Apple Distinguished Schools status, recognised by Apple for continuous innovation in learning, teaching and the school environment. Through the use of Google Workspace for Education we seamlessly integrate learning at home and school. Technology is a key driver for our vision, 'Excellence for All' due to its potential to open possibilities and reimagine learning experiences.

## Successful candidates will:

- Have an excellent understanding of a range of digital software and hardware as well as the benefits of long-term implementation of technology.
- Have a proven track record of excellent teaching that utilises the potential of technology to improve outcomes for learners.
- Be passionate about using digital tools in the classroom to engage pupils, promote accessibility and support teacher workload.
- Have experience of delivering effective school wide training and peer to peer support.

**The EdTech Specialist will work 3 days a week and will be based at Shacklewell Primary School. We offer a competitive salary on a one year fixed term contract.**

## Roles and responsibilities will include:

- Supporting the schools that work in partnership with New Wave EdTech demonstrator programme to implement and deliver an effective digital strategy.
- Collaborating with teachers and leaders at New Wave Federation to sustain innovation within the schools.
- Sharing models of best practice by coordinating school visits, teaching demo lessons and organising teacher showcase events.
- Maintaining a network within the wider EdTech education sector, including Apple and Google.
