

YEAR: Year 2/P3 (Workshop)

FOCUS:

- Keeping track of money
- Choices about saving and spending

WHAT WE HAVE BEEN LEARNING:

- Today your child took part in a RedSTART workshop where we learnt how to manage our money, including budgeting and making spending choices. We started to think about the important role money plays in our lives.

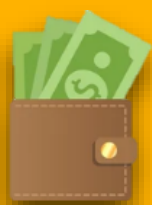

KEY VOCABULARY

£ and p, cost, total, choice, choose, want, earn, win, save

FAMILY ACTIVITIES

- Talk to your child about the fact that lots of people would go to work to be paid. Have a chat about different types of jobs they know about.
- Have a discussion about budgeting and how to do this at home. You could share your weekly amount to spend on food and get your child to help think about the food for the week that this could buy.

ASK YOUR CHILDREN

- See if your child can remember which items they drew for the activity- What I am saving up for.
- Ask them to share these items with you and talk about how much these items cost.
- If your child gets pocket money, you could work out how long it would take to save up for these items.
